PRODUCT FEATURES

AZENIS FK453

AZENIS FK453CC

For Extraordinary High Speed Performance

Nur-Spec Compound

To achieve high speed handling and stability, high silica loaded Falken hard tread compound has been adopted.

Normal Tyre

FK453 Compound

Nur-Spec Construction

- To achieve high speed driving performance, a high rigidity new tyre construction using more than two nylon reinforced layer is adopted to minimize tread profile expansion.
- New round shoulder shape optimizes contact pressure in shoulder area of tread.

MORE STIFF CONSTRUCTION

For the Safety for Your Car and Family on Wet

Nur-Spec Compound

High Silica loaded "adhesive" compound is adopted to make road grip strongly.

Normal Tyre

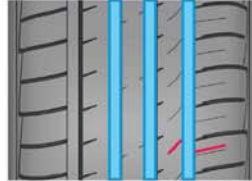

FK453 Compound

Adopting NEW Pattern

- 3 wide straight groove drain water effectively.
- Sipe in inside of tread maintains wet performance in very first wear condition.

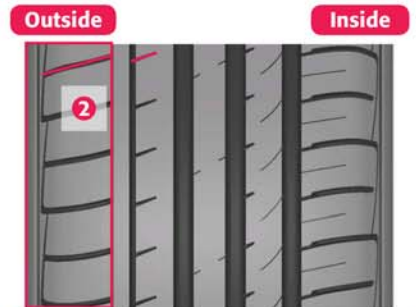

MORE WATER EVACUATION

For Your Premium Car and Life

Adopting NEW Pattern

- Low noise and good handling and stability are progressed by optimized total land/sea ratio.
- Straight rib between outer straight groove and shoulder lateral groove reduce both tyre noise and pass by noise. And it makes handling and stability better by greater pattern rigidity.

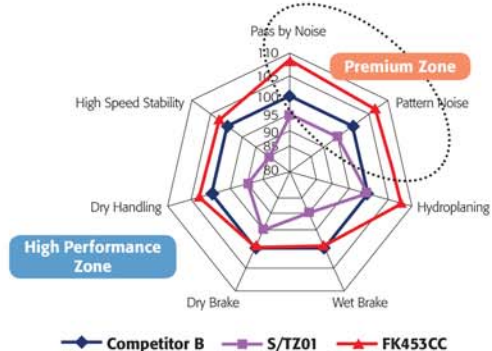

FK453/FK453CC is "Next Top Tyre" for Passenger/SUV Segment
